Attorneys

Comprehensive Services

MedElite Capital works with you and your team to fund your clients' medical services by procuring medical providers that will work on a lien funding basis. Financial solutions will then be provided to medical providers we work with such as MRI centers, pain management practices, chiropractic centers, orthopedic and spine surgeons, surgery centers, and hospitals. Funding will be provided to all of your clients' procedures from the initial visit until the last.

Underwriting Process

MedElite Capital will do our utmost best to preserve and maintain the strong relationships between attorneys and medical providers. As part of our underwriting process, **MedElite Capital** will analyze each case at no cost to you. Once the case enters the underwriting process, all efforts are coordinated between the medical provider and the client, to include scheduling the client's first medical visit. No additional steps to complete on your end! **MedElite Capital** stands by our timeline of cases going through the underwriting process within 48 hours, with funding readily available in 24 hours.

Honest and Fair Lien Negotiation

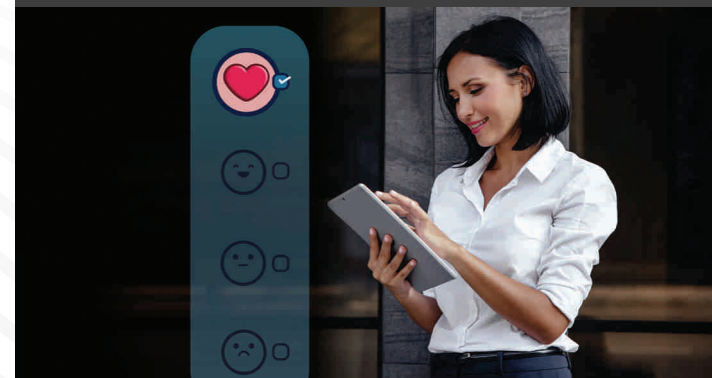

MedElite Capital understands the financial side of personal injury cases and we always seek a win-win for all parties. Regardless of the settlement, **MedElite Capital** strives to maintain good relations with our referring attorneys by being fair and honest with every settlement negotiation.

Immediate Access to All Medical Documents

As prompt submissions of medical reports and bills from medical providers are required, **MedElite Capital** will serve as your main contact to obtain such important information. Attorneys are provided immediate access to medical bills received, to include physician reports, among others.

Choose MedElite Capital

Once an existing lien portfolio is evaluated, MedElite Capital will make you a cash offer to purchase your receivables. You can have cash in hand in as little as 24 hours. If the issue is not cash flow, **MedElite Capital's** services will relieve you of the stress associated with tracking and collecting pending lien bills.

What Our Clients Say

"MedElite Capital has always been easy to work with and made the medical lien selling process convenient. I look forward to growing our network together."

Medical Providers

MedElite Capital provides a broad range of healthcare funding services to benefit uninsured personal injury patients. It is important for medical providers to be paid upfront for their services and for patients to receive the highest level of medical care available.

MedElite Capital knows the value of the attorney and healthcare provider relationship. Because we understand that these relationships, once created, involve a great amount of trust, it is our goal to ensure that these relationships remain strong. Attorneys are often looking for health care providers that perform specific procedures and services on a lien/LOP basis. With this in mind, health care providers look to create positive relationships with attorneys to increase the number of patients they treat. We have built an extensive network of health care providers and attorneys, and we look forward to helping facilitate partnerships between the two.
